Purchasers are expected to pay the transfer fee. The office must be informed at time of transfer if the vendor has agreed to pay.	£40.00

TESTING COSTS

All bull calves must be sire verified and Myostatin tested.

All imports must be registered, sire verified, and tested clear for TH and Myostatin.

Progeny from embryo transfer must be registered, sire and dam verified, and tested clear for TH and Myostatin.

SNP profile

Single Nucleotide Polymorphism - DNA profile

* SNP forms the base for all other genetic tests so is required for any other tests listed can be carried out £28.80

Myostatin testing

A requirement for all bull calves, imported animals and embryo registration calves £6.00

TH trait analysis

Society rules can be found on this website regarding TH testing. This is compulsory for all imports. £10.80

Polled trait analysis

An optional test to be requested at the time of sample submission £3.60

NB: From 1st January 2023 any bull registered as polled will need to be DNA tested and its polled status recorded to avoid any potential confusion. In order to facilitate a smooth transition of this change the Society will cover the cost of the polled test for bulls until the end of 2023.

Parentage/sire verification (up to three parents)

If you are not sure of the parentage of any animal, it must be verified.

*This is also a compulsory test for bull calves born after 1st January 2018. £3.60

Additional parents

This fee will be charged per additional parent, if there are more than three possible parents or for any additional parents notified after submission £4.80

External profile transfer fee

To transfer DNA profiles which have been created at other laboratories, for example, for animals purchased from abroad £5.40

All prices shown include VAT, unless stated otherwise. Payments must be made in £ sterling.
